

**SAFETY TOPIC OF THE MONTH: WEATHER & WORKER SAFETY**

Although winter has only just begun, January is a good time to think about worker safety and well-being in all kinds of weather.

**Streamery Training Video of the Month:**

(10 minutes)

**Safety Tip:** January is the top month for injuries related to falls, slips, and trips. An easy and inexpensive way to mitigate these injuries is to add extra traction to winter footwear. A variety of inexpensive options for ice grips or cleats that attach to or wrap around outdoor footwear are available, even types that rotate and hide away when transitioning outdoors to indoors.
